01 about us.

Crafting Precision, Honoring Tradition

Founded in 1965 by Mr. Haji Sana Ullah, Zaki Industries began as a small workshop in Sialkot, Pakistan, with only two dedicated craftsmen and a vision to produce world-class surgical instruments. With a humble beginning rooted in tradition, our founder's meticulous attention to detail laid the foundation for Zaki Industries' commitment to quality and precision.

Our core products, including forceps, scissors, and retractors, reflect our expertise and dedication to delivering reliable solutions to healthcare providers worldwide.

EST. 1965

Tradition Forged in Steel, Innovation Driven by Vision.

From the precision of each blade to the strength of every retractor, we craft instruments with the utmost integrity, knowing that healthcare providers worldwide rely on our excellence.

ZAKI INDUSTRIES

OUR VISION

Instruments for Tomorrow's Healthcare, MadeToday.

To lead the global surgical instrument market by setting unparalleled standards in precision, quality, and sustainability, making Zaki Industries a trusted partner for healthcare providers worldwide.

Our vision is to transform the landscape of healthcare by delivering instruments that embody excellence and reliability. At Zaki Industries, we believe that precision tools have the power to enhance medical outcomes, supporting healthcare professionals as they work to save lives and promote well-being. We aim to be recognized as a pioneer in sustainable practices, setting benchmarks for eco-friendly and ethical production. Through innovation, craftsmanship, and commitment to quality, we envision a future where every Zaki instrument contributes to a healthier, more sustainable world.

OUR MISION

Empowering Care with Ethical Craftsmanship

To manufacture high-quality, sustainable surgical instruments that meet the evolving needs of healthcare providers and patients worldwide, while upholding our commitment to ethical practices, community welfare,

Our mission is centered around creating instruments that healthcare professionals can depend on, providing tools that enhance their capability to deliver exceptional patient care. Each Zaki instrument is a testament to our dedication to quality, from our rigorous manufacturing processes to our commitment to upholding the highest standards of safety and durability.

OUR VALUES

Our Guiding Principles, Every Step of the Way

INTEGRITY

At Zaki Industries, integrity is the foundation of our operations. We believe in conducting our business with honesty, transparency, and ethical practices.

EXCELLENCE

We pursue excellence in everything we do. For us, excellence means delivering surgical instruments that healthcare professionals can rely on, crafted with skill, care, and a relentless focus on quality.

SUSTAINABILITY

As a company committed to the future, sustainability is integral to our philosophy. We strive to reduce our environmental footprint through initiatives like our solar-powered factory, responsible sourcing, and eco-friendly production methods.

CUSTOMER FOCUS

Our customers are at the heart of everything we do. We aim to understand their needs and deliver solutions that exceed expectations. We are dedicated to providing personalized service and reliable instruments, ensuring that healthcare providers can focus on what they do best: caring for their patients.

COMMUNITY COMMITMENT

We are dedicated to the well-being of our employees, partners, and local communities. Through fair wages, ethical labor practices, and collaborative partnerships like our work with the UN-ITC, we invest in our workforce and give back to the community.

INNOVATION

Innovation drives our commitment to progress and excellence. At Zaki Industries, we continually seek new ways to improve our products and processes, embracing advanced technology and industry developments.

GROWING PHILOSOPHY

Crafting a Legacy, Building the Future of Healthcare.

Our growth philosophy extends to our commitment to community and sustainability. Operating a fully solar-powered factory is just one of the ways we aim to grow responsibly, minimizing our environmental impact and supporting the well-being of future generations

At Zaki Industries, our growth philosophy is rooted in the belief that sustainable progress comes from an unwavering commitment to quality, innovation, and customer satisfaction. We understand that in the healthcare industry, excellence isn't optional—it's essential. As we evolve, we stay grounded in the core values established by our founder, maintaining the standards of quality, reliability, and ethics that define our brand.

KEY FIGURES

Statistics that Reflect Our Commitment to Quality and Growth.

Production Capacity	20,000+	Instruments Produced Daily
Workforce Strength	250+	Our team of 200+ skilled professionals is the backbone of our company
Global Reach	60%	Sales to Europe, Expanding in Southeast Asia
Area and Infrastructure	5,000 sqm	Spanning over 10 kanals and operating fully on solar power
Advanced Machinery	200+	Over 200 cutting-edge machines

As the Managing Director of Zaki Industries, I am privileged to oversee the operational excellence and strategic growth of our company. Our journey is built on a foundation of quality, innovation, and an unwavering commitment to our clients. Together, with an exceptional team, we continue to uphold and enhance the reputation that Zaki Industries has built over decades as a trusted name in surgical instrument manufacturing.

At Zaki Industries, every decision we make is guided by our commitment to deliver instruments that healthcare professionals trust worldwide. Quality is at the heart of our operations, from the materials we select to the rigorous testing each instrument undergoes. As we embrace modern manufacturing technologies, we continue to strengthen this commitment, blending traditional craftsmanship with innovation to produce instruments that meet the highest standards of reliability and performance.

SINGLE USE RANGE

Disposable Instruments, Lasting Impact on Patient Safety

Single-use instruments are a crucial offering from Zaki Industries, combining quality, precision, and safety in every piece. Our single-use instruments are designed to meet the highest standards of sterility and reliability, providing healthcare professionals with the confidence they need in every procedure.

Material Selection & Design

Using high-quality, medical-grade materials, our single-use instruments are crafted for durability and reliability in single-use applications, ensuring they meet strict safety and performance requirements.

State-of-the-Art Manufacturing

Our facilities are equipped with precision-based machinery that guarantees the consistency of each instrument, maintaining exact specifications for reliable performance every time.

Eco-Conscious Disposal Solutions

We understand the environmental impact of single-use products, which is why we're actively developing eco-friendly disposal and recycling options to reduce waste and support sustainable practices in healthcare.

In today's fast-paced healthcare environment, single-use instruments offer convenience, safety, and cost savings.

They provide a practical option for both standard and complex procedures, delivering the quality and reliability needed for precision-driven results. By opting for single-use instruments, healthcare providers can focus on patient care without concerns over sterility or potential cross-contamination.

KEY CATEGORIES OF SINGLE-USE INSTRUMENTS

- FORCEPS
- SCISSORS
- SCALPELS
- CLAMPS AND RETRACTORS

Safety in Every Instrument

The single-use design eliminates the need for reprocessing, reducing the risk of infection and ensuring safe, hygienic conditions for every patient.

Cost Effective

Each single-use instrument is sterilized to meet rigorous healthcare standards, ensuring a sterile environment for patient care.

Optimal Sterility

Each single-use instrument is sterilized to meet rigorous healthcare standards, ensuring a sterile environment for patient care.

Enhanced Precision

Crafted with advanced manufacturing techniques, each instrument is designed to provide the same level of quality and accuracy as reusable options

RESEARCH AND DEVELOPMENTS

Innovation Beyond Limits, Solutions Beyond Boundaries

At Zaki Industries, research and development (R&D) is the foundation that drives us forward. Our dedicated R&D team works tirelessly to develop solutions that respond to the ever-evolving needs of the healthcare sector. From material science advancements to ergonomic design innovations, our R&D department focuses on creating products that elevate surgical accuracy and patient outcomes.

CUSTOM INSTRUMENT DESIGNS

In collaboration with medical professionals, we design instruments tailored to unique surgical procedures, ensuring our products meet the specific requirements of modern healthcare.

MATERIAL ADVANCEMENTS

By researching new materials and coatings, we improve durability, corrosion resistance, and comfort, ensuring every tool is ready for rigorous sterilization and extended use.

CONTINUOUS TESTING AND FEEDBACK

Through a cycle of testing, gathering feedback, and refining our products, we ensure that each instrument meets exacting standards and evolves to meet new demands.

INVESTMENT IN SUSTAINABILITY

Our R&D team is committed to sustainable practices, focusing on eco-friendly materials and reducing manufacturing waste.

QUALITY ASSURANCE

Delivering Confidence with Every Instrument.

Quality is central to our mission at Zaki Industries. Our Quality Control (QC) department meticulously oversees each stage of the manufacturing process to ensure that every instrument we produce meets international safety and performance standards.

Quality is not just a standard; it's our promise to healthcare professionals worldwide.

RAW MATERIAL TESTING

Every batch of materials undergoes rigorous testing to confirm durability, strength, and safety before production begins

MULTI-STAGE INSPECTION

Each instrument is inspected at multiple points, from initial production to the final polish, ensuring consistent quality and attention to detail.

PRODUCT PERFORMANCE TESTING

We test each instrument for functionality and resilience to ensure it withstands the demands of the surgical environment

ENVIRONMENTALLY RESPONSIBLE PRACTICES

Our QC team monitors sustainable practices in production, including material recycling and waste management, contributing to our environmentally responsible approach.

CSR & ENVIRONMENT

Empowering Communities, Transforming Lives

At Zaki Industries, our commitment to social responsibility goes beyond business. As a company rooted in our local community, we actively invest in initiatives that promote well-being, education, and economic development. We believe in creating opportunities, uplifting our community, and ensuring our business practices benefit not only our stakeholders but also society as a whole.

20% Waste Reduction
